

## Best Practice 1

### 1. Title of the Practice:-

Enhancing Employability

### 2. Objectives of the Practice:-

The main objectives of this practice are

- ✓ To improve the academic standards and to provide all the academic facilities to the students based on today's need of the industry and organizations into which the students enter after they complete the degree course.
- ✓ To guide students to choose right career and provide skilled manpower.
- ✓ To provide job opportunity to students in local organizations.
- ✓ To recruit self alumni as faculty in college.
- ✓ To establish partnership with the industries.

### 3. The Context:-

The institute thrives to create skilled human resource to see that students may leave the campus with excellence in all constructive dimensions after completion of their degree courses. We inspire the students to be focused on real world problem of industries and their current required skills because companies no longer just look for academic excellence, aptitude, group discussions and interview skills but are looking at how well your students are prepared to work in their companies. In the nut shell, industries need employable graduates for their support services. We construct the bridge between students and industries for proper placement through this practice. The practice reflects our aims and objective of empowering women and bringing them in main stream to compete as equal to men.

This practice operates on three levels as-

1. Academic partnership with 'Wipro'
2. Placement in Companies
3. Alumni as faculty
4. Opportunities in local organizations.

### 4. The Practice:-

The practice is operated in following four levels

1. **Academic partnership with ‘Wipro’**:- We have academic partnership with Wipro, a software company based in Bangalore which works in software development. This company has made an academic tie up with us. The partnership includes training to our faculty regarding the new trends in software technology and current perspectives about it. The trained faculty trains the students.
2. **Placement in companies**:-This practice involves all students & several faculty of college. Campus recruitment training at our college is designed to aid candidates in their preparation for recruitment through campuses. Students in their final step of graduation or candidate who has completed degree course and is looking for placement in reputed organizations can make use of this training to deliver their best in the selection processes of organizations such as Infosys, Wipro, IBM, Nokia, TCS, Gorgis Web Solution and many more. We aspire to be a professional trainer for the students who are appearing in campus placements to improve their logical thinking, interview skills and aptitude levels which are key points in campus placements. The candidates will be trained thoroughly in the following areas.
  - A) Personality Development
  - B) Examination Preparations Techniques:
    - Aptitude Tests
    - Group Discussion process
    - Interview Process
3. **Alumni as Faculty**:- The eligible and qualified alumni get recruited in our college as per rules of university selection procedure. We prefer the meritorious alumni as faculty. Many of alumni is working as Asst. Professor on temporary basis as well as on CHB.
4. **Opportunities in Local organization**:- We promote the local organizers for providing jobs to girl students of our college. Presently, our students are working in local credit cooperative societies, departmental stores, hospitals and schools etc.

## **6. Problems Encountered and Resources Required**

- ✓ Students with potential for excellence are required to make aware and convince their parents about job opportunities in private and Multi National Companies.
- ✓ Our students are coming from rural areas and have a vernacular medium, hence they lack of confidence so it is need to inoculate the self confidence among students.
- ✓ Initially we had encountered a problem with communications skills specially communication in English to resolve it we have started career orientated course in spoken English.
- ✓ Placement cell be strengthened and made more active. Separate cell, equipments and staffs are required for better functioning.
- ✓ Parents and students be made aware of job opportunities.
- ✓ More efforts are taken to make the students employable.
- ✓ Students be motivated and are resources for motivation be made available.
- ✓ More and more industries be invited for campus placements.

## Best Practice 2

### 1. Title of the Practice:-

#### Health Services to community in collaboration with NGOs

#### Themes of Practice:

- i) Hemoglobin check up camps in adopted villages – Hubalwadi, Manikwadi, Narsingpur, in collaboration with Vandana Lab, Islampur & Dept. of Microbiology.
- ii) Dental check-up camp in Manikwadi village.
- iii) A three day workshop on ‘Sex – Education’ (Tarunyabhan) for college students in Islampur in collaboration with Islampur Medical Association and SEARCH, Gadchiroli of Dr. Rani Bang.

### 2. Objectives of the Practice

- To examine HB and dental check up of girl students and women from adopted village.
- To promote the students and women about health care.
- To promote the women about oral health and health status.
- To determine the prevalence, severity, and determinants of anemia among women in adopted village.
- To guard the adolescent students from misuse of social media, sex related misconceptions and crimes and to impart scientific knowledge about growing up into a man and woman and the responsibilities there on.
- To guard against wrong sex behavior and its dire consequences.

### 3. The Context

Women's health is an important topic that has been neglected so far. Anemia is one of the major issues among women. Moreover the oral health and dental problems has also significant impact on the quality of life, appearance, and self-esteem. Our department of microbiology has been conducting Hb checking camps for villagers from last five year and a dental camp was arranged in collaboration with Vishal clinical Laboratory, Islampur. In this event around 630 college students and women underwent diagnostic check up for HB count and 85 for dental checking.

*Nirbhaya* rape and murder case and its brutality has shaken the country. Everyday there are shocking news of brutal rapes and sex-rackets and cyber crimes. This has brought the issue of sex-education on the forefront. It has become the most challenging issue for government, educationists and parents.

Under these circumstances, the college organized three day workshop on ‘Sex Education’ (Tarunyabhan) in collaboration with Indian and Islampur Medical Association (IIMA) and SEARCH, Gadchiroli an organization of internationally acclaimed medical practitioners and social workers Dr. Rani Bang and Dr. Abhay Bang.

#### **4. The Practice**

One Hb camp was organized in Hubalwadi village. In this camp Hemoglobin ( Hb ) check-up activity was conducted for women of the village as well as girls students. The officers were appalled to know that almost all of the girls were reported anemic. This discovery of anemic nature in rural girls inspired the department of Microbiology to conduct activity of HB check up. Accordingly, the objective of haemoglobin check-up was determined. The major aim of the programme is to create health awareness amongst the girl students and to develop self-consciousness about health and hygiene and to sensitize them to undertake such programmes so that community is benefited.

The first phase was the orientation of concerned anemic student by the experts. It was concluded that for improving the Hb followed by creation of diet awareness. We suggested taking the ample amount of iron rich diet i.e. leafy vegetables like methi, spinach, green peas, gram, leaves of drumstick, jaggery, meat, fish, eggs etc. Primary Health Centers provided medicines like Vitamin B-12 and Folic acid.

In dental check up camp at Manikwadi village, the villagers checked up; had poor oral hygiene and were advised Oral Prophylaxis to remove the Plaque and Tartar. There were 85 villagers were checked in this camp.

The ‘*Tarunyabhan*’ workshop was organized on 22<sup>nd</sup>, 23<sup>rd</sup> & 24<sup>th</sup> December, 2014 in the seminar Hall of the college. Nearly 900 boys and girls from different colleges in Islampur city had participated the workshop. **Dr. Rani Bang**, renowned Socialist, SEARCH organization at Gadchiroli(Maharashtra) herself and her team guided the participants for three days.

After inauguration, there were sessions on different topic related to physical and mental growth of adolescent boys and girls. The first session explained the puberty phase and the menstruation phase and the physical, mental transition with the help of slides.

The second session explained reproductive system of man and women and the guidance on the cleanliness and health of the organs.

In the next session **Dr. Rani Bang** elaborated with examples the responsible and right sex behavior which leads the society and wrong, irresponsible sex behavior which causes personal and social loss and causes unmarried motherhood, AIDS, Child abuse etc. The next session elaborated process of child birth and responsibilities of men and women involved. The session also threw light on the scientific truth that the male partner is responsible for the birth of male or female child. Due to ignorance a woman is victimized. Finally, Dr. Rani Bang guided on addiction a social problem. The slide shows on addiction and a film on self- defense were effective. All the sessions were open for discussions.

## **5. Evidence of Success**

This innovative programme was conducted by department of Microbiology and Vandana Laboratory; Islampur gave their services free of cost. The success of the story belongs to the team work of the college teachers, administrative staff, government agencies, local medical association, students and parents.

There was huge response for the workshop for *Tarunyabhan* workshop. The open sessions were successful. Boys and girls got their quarries resolved. The active participation of participants itself is the evidence of the success of the practice.

Due to social and cultural restrictions such issues are not discussed openly. Dr. Rani Bang played the role of parent, teacher, friend, guide, philosopher and expert. The girls in the beginning were uncomfortable, but Dr. Rani Bang created a healthy atmosphere.

Participants freely shared their personal and family problems. The workshop also included family and social issues & moral values.

This workshop motivated participants to grow into a healthy, responsible, rational citizen with a proper insight into gender equity.
